

London Section

Introduction to Upstream Oil and Gas for the Net Zero World

Welcome and Introduction

Khaled Al Marei, Principal Reservoir Engineer

STOREGDA

4th November 2025

The Geological Society, London

London Section

- No fire alarm test is been planned for today, so should the alarm go off please take it seriously
 - If the fire alarm sounds, please follow the fire signage to vacate the building via the closest exit.
 - Do not collect your belongings from the cloakroom and please assist any disabled person in your area.
 - If you are seated towards the front of the theatre, exit the building via the door behind the curtains to the left of the stage. While if you are seated towards the back of the theatre, exit through any of the three fire doors at the back of the room.
 - Assemble outside in the courtyard in front of the Royal Astronomical Society. And do not re-enter the building until you are instructed by a Geological Society Fire Marshal.

- The Society of Petroleum Engineers (SPE) is a not-for-profit professional association whose more than 140,600 members in 144 countries are engaged in oil and gas exploration and production.
- The SPE London board oversees the SPE London Section activities including our evening programme and other events. Our different committees have specific focus for the members including Young Professionals, Women in Energy, **Net Zero**, **Continuous Education** and associated student chapters. As well as engineers who make up our core, we also welcome qualifications in geology, geophysics, earth science, environment, health and safety, mathematics, information technology, as well as management and economics.
- SPE's membership in the Greater London area includes engineers, geoscientists, economists, managers, educators, consultants, etc.
- Let us know if you would like more information or would like to join the SPE:

	Topic	Speaker
09:00 – 09:10	Introduction	Khaled Al Marei, Storegga
09:10 – 09:50	The Role of E&P in the Energy Trilemma	Adam Borushek, RISC
09:50 – 10:30	Geosciences	Paul Wilson, Perenco
10:30 – 10:50	Morning break	
10:50 – 11:30	Drilling	Iain Hutchinson, Merlin Energy
11:30 – 12:10	Reservoir Engineering	Frank Folorunso, Star Energy
12:10 – 13:00	Lunch	
13:00 – 13:40	Production Facilities	Omer Khoshnaw, INEOS
13:40 – 14:20	Upstream Economics	Long Wang, Harbour Energy
14:20 – 15:00	Sustainability and Reporting	Charlie Watson, sustain:able
15:00 – 15:20	Afternoon break	
15:20 – 16:00	Upstream Digital Transformation	Alejandro Primera, SLB
16:00 – 16:40	Energy Transition Career	Alison Isherwood, Consultant
From 16:40	Networking drinks	

There will be time for Q&A towards the end of each presenter's section

London Section

- Presentations (pdf) will be available on the SPE London web site <https://www.spe-london.org/>
- Please fill in the feedback form, your views mean a lot to us
- Get to meet new people, ask questions and don't forget to follow us on LinkedIn: '[SPE London Section](#)'

Enjoy the day!
